JIR SANDEL are thrilled to announce the publication of our recent artist's book 3 Days 15 Hangings 168 Photos by Magnus Frederik Clausen. The book is born from a collaboration between Magnus Frederik Clausen and his assistants, Nina and Noah, to which the artist asked to photograph the clock paintings they had previously painted following his instructions. The publication is created in dialogue with designer Andreas Peitersen and accompanied by an essay by curator and writer Marie De Brugerolle, which unfolds Clausen's conceptual work with painting throughout the last five years.
